3/02 - 6/02

SKILLS

I started freelance editing in 2002 after working for 6 years at a commercial house called Red Car Editorial. At Red Car I was an assistant and worked my way up to editor before heading into the freelance world. My first freelance edit job was at MTV and from there I did not look back. I've edited countless sizzle reels and mainly work on unscripted / reality TV. I've become an innovative editor with expertise in Avid Media Compose as well as Adobe Premiere Pro and Final Cut Pro. I have a strong foundation in storytelling techniques and I am always committed to driving collaborative projects from beginning to end that deliver impactful results and engage diverse audiences.
